

## G6 Geography – Earthquake Survival Kit

You live in Kobe, Japan. Following on from the last major earthquake in 2011, the destructive plate boundary on which Japan lies has been showing signs of activity. The Japanese Prime Minister has told his people to put together an earthquake emergency kit that would be useful in the event of another earthquake.

### Your Task

You must choose only 10 items from the list below that you think would be most useful to put in an emergency kit. Think carefully about what you would need should there be an earthquake! Make sure you have the reasons for your choices.

Medicine	Plasters	Knife Fork Spoon
Plastic Bucket	Torch	Laptop Computer
Board Games	Matches	Candles
Tin Opener	Pocket Knife	Small Tent
Bottle of water	Water Purifying Tablets	Toilet Paper
Battery Radio	Toothpaste	Mobile Phone
Disinfectant	Tinned Food	Dried Food
Dust Mask	Spade	Blanket
Transmitter	Mobile Charger	Camping Gas and Stove
Batteries	Tools	Spare Clothes

Once you have made your decision, design an 'Emergency Earthquake Kit' poster to show what people should have ready in case of a tremor! Don't forget to explain to people why your chosen 10 items are so important.
