

Name

G7 Geography – Why Build Walls?

noun

1. a continuous vertical brick or stone structure that encloses or divides an area of land.
"a garden wall"

Task 1 – In the space below, list down between 5-10 reasons why walls are built.

| | |
|---|----|
| 1 | 6 |
| 2 | 7 |
| 3 | 8 |
| 4 | 9 |
| 5 | 10 |

Task 2 – Now choose your top three reasons and write them into the diagram below with a short explanation and if possible, a place in the world where you know this exists.

| Reason | Explain a little more | A place in the world |
|--------|-----------------------|----------------------|
| 1 – | | |
| 2 – | | |
| 3 – | | |

Name

What Do We Use to Build Walls?

In the space below, make a list of five common materials that a wall could be made from. For each, state one advantage and one disadvantage

| Material | One advantage | One disadvantage |
|----------|---------------|------------------|
| | | |
| | | |
| | | |
| | | |
| | | |

You are now going to see three photos. Annotate around each photo some of the strengths, weaknesses, and key design features. Do not forget to suggest what you think they have been built for and perhaps, where.

| Why was it built? | Where? |
|-------------------|--------|
| | |
