## **G6 Geography – The New Silk Roads**

Task 2 – Using the embedded map on geographypods as your guide, sketch out the approximate routes of the following on the map:

Tourse of the females map.			
Route	Key	Tick when complete	
Silk Road Belt (overland)	Black line		
Silk Road (ocean)	Blue line		
Oil pipelines	Green line		
Gas pipelines	Red line		
All entry points for railways lines (in and out of China).	A star		

Now add on the names of key cities along each of the routes.

Why are the Chinese government building pipelines to carry oil and gas from surrounding countries into China?

Complete the fact hav below voice t	ho toyt on goograph	ds to holp you	
Complete the fact box below using the text on geographypods to help you.			
How many countries are going to be initiative?	connected by this		
initiativer			
The second of the head of the letter of	tile e e e del de e e de ei		
How much of the total population o	the world does that		
account for?			
How much of the total global GDP d	oes that account for?		
The to think of form managers where	hina wanta ta davalan i	ito alabal vaaab bu atvaaatbaaisa aad	
		its global reach by strengthening and	
		at the places being connected. Record	
your ideas on the spider diagram be	low.

Watch the Music Video. This was made by the Chinese governments and features a group of children (from the different countries impacted by the New Silk routes) singing a lovely song.

What do you think about the content and the images in this official video?

In the space around the screenshot below, write down all the positive things that are talked about in the video.

Finally, watch the embedded Vox video on geographypods. This video sums up everything we have learnt about so far. If you hear anything new or interesting, make a note of it in the space beneath.
